

UDAY BANSAL

Agra, India | +91 9528968570 | uday.bansal_cs.aiml23@gla.ac.in | [LinkedIn](#) | [GitHub](#)

EDUCATION

Bachelor of Technology – Computer Science (AI & ML)

June 2027

GLA University, Mathura | CGPA: 7.2/10

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript

Web Technologies: HTML5, CSS3, REST API design, MVC architecture

Databases: MySQL (DDL, DML, CRUD operations, relational modelling), Vector Databases

ML & Data: Scikit-learn, TensorFlow, NumPy, Pandas, RAG, LLMs

DevOps & Tools: Docker, Git, FastAPI, Logging & Code Coverage

Soft Skills: Effective Communication, Leadership, Interpersonal Skills

PROJECTS

[NeuralDoc – Intelligent Document Q&A System \(RAG Pipeline\)](#) | [GitHub](#)

Jan 2026 – Mar 2026

Tech: Python, RAG, Vector Databases, LLMs, FastAPI

- Built a full-stack document question-answering system using Retrieval-Augmented Generation (RAG), enabling users to query documents intelligently via a REST API.
- Implemented end-to-end pipeline covering embedding generation, vector search, and LLM-based response synthesis for accurate context-aware answers.
- Designed modular, scalable architecture following separation-of-concerns principles, ensuring easy extensibility and production-readiness.

[End-to-End ML Inference Deployment System](#) | [GitHub](#)

Nov 2025 – Dec 2025

Tech: Python, Scikit-learn, FastAPI, Docker, REST API, Deployment

- Developed a production-ready ML pipeline encompassing data preprocessing, model training, evaluation, and real-time inference via a REST API service.
- Exposed model predictions through a FastAPI-based REST endpoint, following RESTful design principles analogous to Spring REST/Boot patterns.
- Containerized the full application using Docker and deployed a scalable, model-serving system suitable for enterprise-grade usage.

CERTIFICATIONS & TRAINING

- Machine Learning in Production – *DeepLearning.AI (Coursera)*
- Workshop on Generative AI – *Conducted by Mr. Tarang Nigam*

CO-CURRICULAR ACTIVITIES

- Participated in AAGAZ Sports Fest, GLA University – April 2026
